

# CARLOS EDUARDO F. PAIVA

## Fullstack Developer

+55 (43) 9 9992-6376

Londrina, Paraná - Brazil

cadupaiva629@gmail.com

Backend-focused and full stack developer with experience in Java, Spring Boot 3, React, Node.js, and PostgreSQL. Currently working in an international environment providing support operations across more than 10 countries in Portuguese, English, and Spanish, developing strong communication, adaptability, and problem-solving skills. I am also part of a legal-tech startup, directly contributing to the development and evolution of its software solutions. Seeking an opportunity to continue growing as a developer and contribute with impactful solutions.

## EXPERIÊNCIA

### Atos / Semantix – Service Desk

[06/2025 – Nowadays]

Provided international technical support for operations across more than 10 countries in Portuguese, English, and Spanish, delivering Level 1 support for Windows environments, Microsoft 365, and corporate applications. Responsible for remote troubleshooting, access management through Active Directory and Azure, and infrastructure support involving VPNs, networks, and corporate email services.

### LexStart – Full Stack Developer

[06/2025 – Nowadays]

Developed the full stack architecture of a legal-tech platform using React.js, React Native, Node.js, Express, and PostgreSQL, working on responsive interface development, backend APIs, database modeling, and service integration. Also participated throughout the entire software development lifecycle with a focus on performance, scalability, code organization, and version control using Git.

### SafeTeen - DBA

[08/2024 – 04/2025]

Worked on the modeling and structuring of relational databases using PostgreSQL, developing optimized SQL queries, integrations with Spring Boot applications, and scalable database structures focused on performance, data integrity, and organization in collaboration with the backend team.

### SafeTeen – BackEnd Developer

[08/2024 – 04/2025]

Developed and maintained backend applications using Java and Spring Boot 3, creating and integrating RESTful APIs, implementing business rules and system integrations, as well as working with relational data persistence, SQL query optimization, and code versioning using Git.

## SKILLS

### Backend:

Java • Spring Boot 3 • Node.js • Express  
• REST APIs

### Frontend:

React.js • HTML • CSS • Tailwind CSS

### Database:

PostgreSQL • Data modeling • Query  
Optimization • MongoDB • NoSQL

### Languages:

JavaScript • TypeScript • SQL

### Mobile:

React Native

### Infra & Support:

Microsoft 365 • Active Directory • Azure •  
Windows • Redes • VPN

### Tools:

Git • Postman

## LANGUAGES

English – Advanced  
Portuguese – Native  
Spanish – Advanced  
Russian – Intermediate
